Looking for a more efficient way of filling your portable drier?

- Our trench intakes are compatible with most portable driers.
- Designed to reduce time spent loading a drier.
- Built to handle "dump" loading with ease.
- Lengths available from 3m to 15m.
- Capacities from 60 tph to 120 tph.
- Optional Hopper to increase product catchment area.

Our range of trench intakes are available on our Ezi Quote system, for both our agricultural and light industrial range of store conveyors.

Ezi Quote - a fast, simple and effective way of obtaining a quote from us. To find out more visit
